

DripTray™ – Cleanliness at the heart of the process

The hygienic finish that keeps your process spotless

The **DripTray™** is a mirror-polished stainless steel drip tray designed to ensure cleanliness and safety in process areas during maintenance, rinsing or filter cartridge replacement operations.

Designed to fit seamlessly under CPG, CPG-MC or ClearView housings, it effectively collects condensate and effluent while maintaining a hygienic working environment.

Its design with no sharp edges, polished finish ($Ra \leq 0.8 \mu m$) and removable 316L stainless steel grid ensure quick cleaning and maximum durability, even in aseptic environments.

Available in several sizes, the **DripTray™** fits all PHARMACRAFT™ housing models.

Key benefits

- Removable grid for quick cleaning
- rounded corners, mirror-polished finish, optimised draining

Typical applications

- Aseptic maintenance and preparation areas
- Recovery of condensates, rinses or effluents
- Protection of work surface or floor under housing

Material	Inox 316L 1.4404 ou 1.4435
Surface Finish	$Ra \leq 0.8$ or 0.4 Electro
OPTIONS	Anti-vibration pads or stainless steel wheels

ORDERING INFORMATION – DripTray

DT	316L	MOBILE or LANDLINE	Finition
DT	1.4404	R = Wheels	B = 0.8 µm mechanical polished
	1.4435	P= pads	EP= 0.4µm electropolished

Example for a DipTray 1.4404 Ra 0.8 with pads
