PLUG&SEAL for your multi-cartridge housing

Secure your unused ports with elegance and precision

Plug&Seal™ is the essential accessory for PHARMACRAFT CPG-MC multi-cartridge housings. Made from mirror-polished 316L stainless steel, it hermetically seals unused cartridge slots, ensuring perfect hygiene and total compatibility with aseptic environments. Thanks to its standard C-Style (226) connection and ergonomic handle, the **Plug&Seal™** can be installed and removed without tools in a matter of seconds.

It thus ensures flexibility, safety and compliance in the most demanding pharmaceutical, cosmetic and biotechnology applications.

Key benefits

- Universal compatibility with all code 226 cartridge heads
- 100% 316L stainless steel with 3.1 certificates and roughness

Typical applications

- Temporary sealing of unused bores on multi-cartridge housings
- Filter validation or integrity tests
- Process qualification phases
- Pilot lines and small-batch production

Material	316L 1.4404 or 1.4435
Finition	Ra ≤ 0.8 or 0.4 Electro
Connection	C-Style (226)
Maximum Temperature	150 °C
Joints disponibles	EPDM / Silicone platinum / Viton

ORDERING INFORMATION – PLUG&SEAL

PLG	226	316L	SEAL	Surface finish
PLG	226	1.4404	SILICONE	B = 0.8 µm mecha
		1.4435	EPDM	EP= 0.4µm electro
			FFKM	

Example for a plug 1.4404 electropolished and silicone seals

PLG	226	1.4404	SIL	EP
