

Custom
Filtration Solutions

PHARMASTAND™ with option DripTray™

The essential mobile support for your filtration operations

The **PharmaStand™** has been designed to offer ergonomics, mobility and safety when using your PHARMACRAFT filtration housings. Thanks to its 316L stainless steel structure with a mirror-polished/electropolished finish, it guarantees impeccable cleanliness and perfect compatibility with pharmaceutical, biotechnology, cosmetics and food environments

Key benefits

- Compatible with CPG and ClearView™ housings
- Smooth movement thanks to directional wheels
- Hygienic design, softened edges and polished welds

Typical applications

- Aseptic maintenance and preparation areas
- Sterile filtration upstream/downstream of reactors and fermenters
- Preparation of culture media

Material	316L 1.4404 or 1.4435
Surface finish	Ra ≤ 0.8 or 0.4 Electro
OPTIONS	Anti-vibration pads or stainless steel wheels
